### Description

Description Flavour Company Flavours for the food and pharmaceutical industries in 1993 by a team of people with different experiences in the food industry, Flavourland has established itself in the "Flavour world" for its passion, creativity and innovation. The study of the 'perception of taste', the attention to market trends and last but not least the aim to transfer the 'new' and the 'italian' also in the taste and flavour, have always characterized and marked Flavourland to become the reference point even for the most demanding customers. Commitment, dedication, efficiency and research are the key aspects that contributed to the fast Flavourland in flavours. To operate under the 'well doing' in respect of consumer's health (D.lgs.193/HACCP) and quality (certificazione ISO 9001 2008), from the flavour sampling to its production, are the foundations on which Flavourland has built its business project. Project which goes well beyond the time and circumstances. Our race for innovation, technology and the scientific way of working goes ahead!
