Description

Mount Vesuvius, a land full of rich minerals and tough terrain, is where the story of Vini forno began and where it continues to grow. The “Forno” winery, was founded in 1940 by Andrea Forno who had a passion and love for his grapes and the magnificent land that surrounded him. He began his adventure by producing wine using old traditions and selling it to the locals in town. His traditions and passion were then passed on to his son Francesco and grandsons, Salvatore and Andrea who share the enthusiasm. In 1983, the company began distributing their precious wines throughout Italy and northern Europe, where Forno has become a known and sought-after brand. As the sales grew, so did the company by investing in land and a new production facility in order to maintain the quality that their wines are known for. Today, Vini Forno wines can be found around the globe as the family continues to propel into the future.
