## Business Offer

## Support for companies that would like to do business in Yokohama

We would like to provide detailed information on Yokohama and the Japanese market in general to interested European companies and administrations: market research, feasibility studies, Yokohama land and rent prices, office and production site locations, etc. We also can coordinate business missions to Yokohama, tailored to specific interests and including tours of business facilities, project sites and government offices. In addition, we are happy to assist European companies who plan to invest in Yokohama in obtaining financial support from the Yokohama City Government.
