ITALIAN SNACKS

Our History

Since 1950, their passion for baked products has inspired the Cristino family to research and discover the hidden secrets of the interaction between natural ingredients, to create new non-artificial flavoured products.

After 40 years of artisan production, Maria Cristino decided to take the same product, with the same characteristics, to the greater market. In 2002, she created the Cristino© brand, catering to all those who value authenticity and natural flavors.
